Personal Details:

Pakistani | 28 July 2008 | Karachi

18 years old. Full stack. Karachi-built. From a four-semester Aptech grind to winning AI competitions, leading teams, and shipping real products — I don't wait until I'm ready. I build until I am.

PROFILE

Hardworking College Student seeking employment. Bringing forth a motivated attitude and a variety of powerful skills. Adept in various social media platforms and office technology programs. Committed to utilizing my skills to further the mission of a company.

ACCOMPLISHMENTS

ACHIEVEMENTS & AWARDS

- 1st Place — AI Web Development & Content Generation Competition
Designed and developed a fully functional AI-powered web application that won first place against senior competitors.
- Aptech Vision 2025 — Selected Representative
Built and presented a career counselling AI at Aptech's flagship annual showcase, selected from institute-wide submissions.
- TechWiz — International Web Development Competition
Represented Pakistan in an international web development competition, competing against teams from multiple countries.
- Team Lead — 4 Project Teams
Led cross-functional development teams across 4 separate projects, managing planning, task delegation, and delivery from kickoff to launch.

PROFESSIONAL EXPERIENCE

Backend developer

Karachi

- Designed and built 2 Laravel web applications, implementing RESTful APIs, role-based authentication, and normalized MySQL schemas.
- Developed 1 ASP.NET MVC application with SQL Server integration and secure authentication flows.
- Delivered 2 full-stack MERN projects (Node.js/Express, MongoDB, React) featuring responsive UIs and JWT-based authentication.
- Optimized backend performance through query tuning and basic caching, and maintained code with Git-based workflows and unit tests.
- Key technologies: PHP, Laravel, ASP.NET, Node.js, Express, React, MongoDB, MySQL, REST APIs, Git.
